

BHcut黄铜丝

产品特点:

特殊的合金成分提高切割丝的电气化稳定性能，提升了加工过程的冲洗性能，提高加工效率；
最先进的切割丝生产线，保证产品品质，满足加工精度和表面光洁度的一般要求；
自动穿丝便捷，适用于所有加工机床。

High Efficiency Brass Wires

Product Feature:

Special alloy component to improve process performance, promote rinse performance and cutting efficiency;
Most advanced production line, to ensure quality and meet the requirement of standard precision and surface finish;
Good for auto-threading, suitable for all machine types.
